EXPERIENCE

Front End Developer

Fresh Tilled Soil — Watertown, MA

WINTER 2016 - CURRENT

Building rapid prototypes in React, Redux and D3.
Creating UI component kits in React for clients.

FALL 2016

Enhanced UX and design skills in an apprenticeship that included a formal curriculum component as well as client work.

Front End Developer

NASA Astrophysics Data System — Cambridge, MA

2014 - 2016

Assisted in re-implementing the core functionality of the ADS website using primarily jQuery/Backbone and later React/Redux.
Designed and implemented new visualizations in D3.
Led the redesign of the UI using wireframing, client interviews, and user testing.

2012 - 2013

Curated metadata and worked to automate data management tasks in Python.

English Teacher

Princeton in Asia — Almaty, Kazakhstan

2011

Taught intermediate English and essay composition to Masters students.

PROJECTS

Progressive Massachusetts Legislator Scorecard

scorecard.progressivemass.com

Created an interface in React with a small Node backend for state legislator voting information collected by a local grassroots group.
